INDEPENDENT ACCOUNTANTS' REPORT

Board of Commissioners Town & Country Drainage District No 1 Monroe, Louisiana

We have compiled the accompanying component unit financial statements of Town & Country Drainage District No 1, a component unit of the Ouachita Parish Police Jury as of December 31, 2011 and for the year then ended, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants

A compilation is limited to presenting in the form of financial statements information that is the representation of management. We have not audited or reviewed the accompanying financial statements and, accordingly, do not express an opinion or any other form of assurance on them

A statement of cash flows for the year ended December 31, 2011 has not been presented Generally accepted accounting principles require that such a statement be presented when financial statements purport to present financial position and results of operations

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2011

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Town & Country Drainage District No 1 was created with ordinance No 7229 by the Ouachita Parish Police Jury on August 19, 1968 The ordinance was adopted under the provisions of Part I, Chapter VI, Title 38 of the Louisiana Revised Statutes of 1950, as amended The Drainage District is a component unit of the Ouachita Parish Police Jury and is governed by a board of commissioners that is appointed by the Police Jury

The purpose of the Drainage District is to create and maintain a system for draining and reclaiming the undrained or partially drained overflowed lands in Ouachita Parish that are specified in the Charter

The financial statements of the Drainage District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the governmental unit's accounting policies are described below

A Fund Accounting

The accounts of the Drainage District are organized on a fund basis. The operations of the fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures. Revenues are accounted for in the fund based upon the purpose for which spending activities are controlled. The fund presented in the financial statements was initially used to account for the cost of constructing drainage improvements in the Town & Country subdivision. Each property owner was assessed their proportionate share based on square footage. Currently, maintenance taxes are assessed the property owners as a percentage of original assessment.

B Basis of Accounting

The Drainage District's records are maintained on a modified accrual basis of accounting utilizing the following practices in recording revenues and expenditures. Revenues are recognized when they are considered to be measurable and available. Property taxes were assessed on April 1, 2011 for 2011, and became a lien on the property when assessed. The taxes are collected throughout the year but are recognized as revenue on the assessment date.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred

The Drainage District's fixed assets consist primarily of levees and canals, and management has elected not to report on "infra-structure" fixed assets, therefore, no fixed assets account group is included in the accompanying financial statements

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2011

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C Budgets and Budgetary Accounting

The Drainage District budget for 2011 was adopted on a cash basis of accounting, which is not in accordance with GAAP, and budgetary comparisons presented in this report are on this non-GAAP budgetary basis. A reconciliation of actual and non-GAAP budgetary amounts is included in Note 2.

D Cash Deposits with Financial Institutions

The Town and Country Drainage District's bank balances of deposits as of the balance sheet date are entirely insured by the Federal Deposit Insurance Corporation (FDIC)

NOTE 2 - RECONCILIATION OF ACTUAL TO BUDGETARY BASIS (CASH)

The accompanying statement of revenues and expenditures – Budget and Actual, presents comparisons to legally adopted budgets with actual data on a budgetary basis – Because accounting principles applied for purposes of developing data on a budgetary basis differ significantly from these used to present financial statements in conformity with GAAP, a reconciliation of resultant basis in the excess (deficiency) of revenues and other sources of financial resources over expenditures for the year ended December 31, 2011 is presented below

December 31, 2011

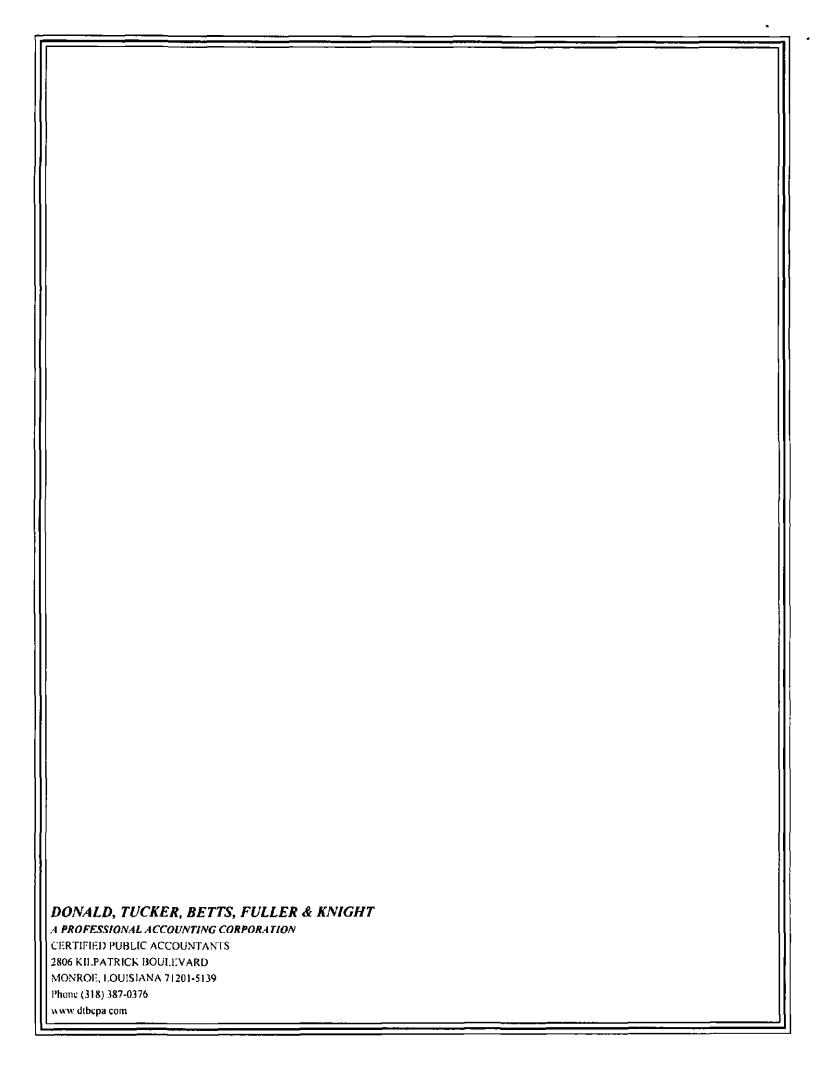

Excess of expenditures and other uses of financial resources over revenues and other sources of financial resources (GAAP basis) \$(19,623.14)

Adjustments

To adjust revenues for receivable (1,317.45)

Excess of expenditures and other uses of financial resources over revenues and other sources of financial resources (budgetary basis)
